DETAILED ACTION

Claim Objections

Claims 7 and 16 are objected to because of the following informalities:

In claim 7 at line 8, delete "an".

Claim 16 is depending on canceled claim 4.

Appropriate correction is required.

Allowable Subject Matter

Claims 7-16 are allowed over prior art.

The following is an examiner's statement of reasons for allowance:

Regarding claims 7-16, the prior art fails to teach a containers/vehicles inspection system having an accelerator rack composed of a rack including a base, a vertical arm vertically connected to the base, a bending framework vertically connected to the vertical arm and a cantilever connected under the bending framework, a rotary adjustment mechanism arranged between the horizontal end of the bending framework and the cantilever so as to make the cantilever rotate horizontally, and a pitching adjustment mechanism provided at the bottom end of the cantilever, the accelerator is hinged with the pitching adjustment mechanism at the coaxial intersection of the cantilever and the pitching adjustment mechanism through a hinging shaft and provided over the base so as to make vertical pitching movements as claimed in independent claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
